

# JET DARK

## Cool Peel Inkjet Transfer Paper

### 1. Printing and Application Instructions

- Choose a dark or bright coloured substrate made of 100% cotton.
- Load transfer paper so blank side receives the image – consult your printer manufacturer's directions.
- DO NOT Reverse (flip or mirror) the image before printing.

### 2. Peeling Away Paper Backing

- Holding image side of transfer toward you make a small (1/4 inch) hard crease at the corner edge of the transfer.
- Flip the transfer over and crease the same corner again but in the opposite direction.
- Holding the back side of the transfer toward you, gently tear the paper backing on the crease to separate the transfer from the paper backing.
- The tear should same with the paper backing torn and separating from the transfer.
- Do not tear the transfer layer.

### 3. Trimming Your Transfer

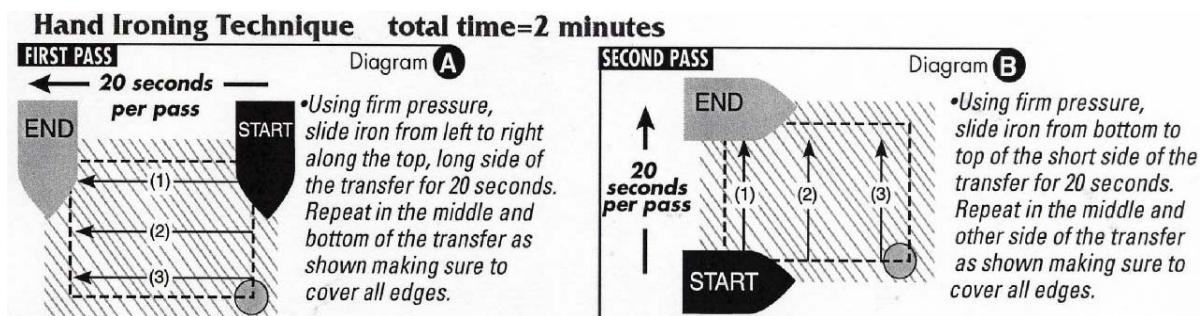

- When you have made the tear, separate the layers and SLOWLY peel the transfer just past the image. Stop there and realign the paper backing with the image layer.
- Trim around the image.
- After trimming the transfer, GENTLY peel the remaining paper backing away from the transfer.

### 4. Transferring using a Commercial Heat Press

- Place wrinkle-free garment onto press pad with transfer (print side up) onto garment.
- Place parchment sheet on top of the transfer. Make sure the entire transfer is covered by the parchment leaving no area of the transfer uncovered.
- For all size transfers, press at 275°F / 138°C for 18 seconds, with high pressure.
- Remove from heat and proceed to step 6.

### 5. Transferring using a Hand Iron

- Preheat the iron on hottest setting for 5 minutes. NO STEAM.
- Fold a pillowcase in half and place it on the hard, smooth ironing surface with the open end hanging over the edge. Iron to remove wrinkles.
- Place the transfer "FACE UP" on garment. Next, place the parchment sheet over the transfer.
- It is very important that the entire transfer fits under the parchment sheet leaving no area of the transfer uncovered.

### 6. Peel away Parchment

- Allow the transfer to cool to the touch (at least 2 minutes) then peel away the parchment sheet.

#### Washing

\* Turn garment inside out.

\* Wash garment separately (1st time only)

\* Colour-safe detergent (no bleach)

\* Tumble dry warm (Add towels to improve drying)

\* Machine wash cold.

\* Remove promptly from washer. Colours may bleed if garment is left wet too long. If bleeding occurs, rewash immediately.

\* If garments needs ironing, DO NOT iron directly on the transfer.
